SENIOR CARE
BUILT AROUND YOU

The Program of All-Inclusive Care for the Elderly (PACE) is a community-based program that provides coordinated medical and social services to eligible older adults who want to continue living in their own home despite chronic care needs. The PACE at Hudson Headwaters team works with each participant to develop a care plan that promotes independence and the highest quality of life while allowing choice and dignity for participants and their families.

Most PACE participants are dual-eligible, meaning they qualify for both Medicaid and Medicare although there are also private pay options.

PACE is responsible for managing and paying for all services delivered to participants. Participants may be liable for the cost of unauthorized services outside of the PACE at Hudson Headwaters network.
